34mm rings in 4 heights for an uncompromising fit

INNOMOUNT Ø 34 mm rings are available in several heights to precisely adapt to each optical configuration. This modularity allows you to adjust the scope's positioning according to mounting constraints and desired ergonomics. In use, the quality of the machining is immediately apparent: the grip is secure and stable, and the entire assembly inspires confidence from the very first adjustments.

- **Ring width** : 15 mm
- **Material** : High-strength aluminum
- **Compatibility** : Glasses with a 34 mm center tube

- **Diameter** : 34 mm
- **Available heights** : 3 mm, 6 mm, 9 mm, 12 mm

The INNOMOUNT 34 mm rings offer a complete solution to precisely adapt your optical mount, according to your scope and field constraints.

Fine-tuning to each configuration

Thanks to the various height settings, adjusting the optic's position becomes simple. In practice, this directly impacts aiming comfort and natural alignment - a detail that truly changes the feel on the shoulder.

An immediately noticeable quality of machining

Made from **high-strength aluminum** , these rings offer an excellent balance between lightness and robustness. The surfaces are clean, the adjustments precise - nothing is left to chance.

Reliable and regular maintenance

With their 15 mm width, they ensure even clamping of the tube. The result: a perfectly held optic, without excessive stress, and stability that is confirmed over time.

FAQ

Are the rings sold in pairs?

No, INNOMOUNT rings are sold individually. You need to order two for a complete setup.

What height should I choose?

The choice depends on your setup: the lower the height, the closer the lens will be to the barrel. Greater heights allow for larger lenses.

Are these rings compatible with all 34mm glasses?

Yes, they are designed for all glasses with a 34mm center tube.
