36mm rings in 3 heights for precise adjustment

INNOMOUNT 36mm rings are available in various heights to precisely adapt to different optical configurations. This modularity allows for fine-tuning the scope's position to achieve natural alignment and optimal aiming comfort. In the field, the quality of the machining is immediately apparent: the clamping is clean and precise, and the stability inspires confidence from the very first adjustments.

- **Ring width** : 15 mm
- **Material** : High-strength aluminum
- **Compatibility** : Glasses with a 36 mm center tube
- **Diameter** : 36 mm
- **Available heights** : 3 mm, 6 mm, 9 mm

The INNOMOUNT 36 mm rings allow you to precisely adapt your optical mount according to your scope and configuration.

Optimal adaptation to each configuration

Thanks to the various height settings, adjusting the optic's position becomes simple. In practice, this directly improves alignment and aiming comfort - a point that is appreciated from the very first setup.

A robust and precise design

Made from **high-strength aluminum** , these rings offer an excellent balance between lightness and strength. The finish is clean, the adjustments precise, with no unwanted play.

Reliable maintenance over time

With their 15 mm width, they ensure even clamping of the tube, limiting stress while guaranteeing excellent long-term stability.

FAQ

Are the rings sold in pairs?

No, INNOMOUNT rings are sold individually. You need to order two for a complete setup.

What height should I choose?

A low height brings the optic closer to the barrel for a more natural aiming, while higher heights allow for clearer visibility of larger optics.

Are these rings compatible with all 36mm glasses?

Yes, they are compatible with all glasses with a central tube of 36 mm in diameter.
