40mm rings in 3 heights for a perfectly fitted assembly

INNOMOUNT 40mm diameter rings are available in various heights to precisely adapt to even the most demanding optical configurations. This modularity allows for fine-tuning the scope's positioning, ensuring natural alignment and optimal aiming comfort. In use, the quality of the machining is immediately apparent: the clamping is clean and consistent, and the stability inspires complete confidence from the moment of installation.

- **Ring width** : 15 mm
- **Material** : High-strength aluminum
- **Compatibility** : Glasses with a 40 mm center tube
- **Diameter** : 40 mm
- **Available heights** : 3 mm, 6 mm, 9 mm

INNOMOUNT 40mm rings offer a reliable solution for adapting your optical setup to the most specific configurations.

A precise adaptation to your configuration

Thanks to the various height settings available, it's possible to fine-tune the scope's position. In practice, this improves aiming and overall alignment - a detail that's immediately noticeable at the shoulder.

Impeccable manufacturing quality

Made from **high-strength aluminum** , these rings combine lightness and robustness. The finish is clean, the adjustments precise, without play or approximation.

Even and lasting support

With a width of 15 mm, they ensure optimal distribution of clamping force on the tube, guaranteeing excellent stability over time.

FAQ

Are the rings sold in pairs?

No, INNOMOUNT rings are sold individually. You need to order two for a complete setup.

What height should I choose?

A low height allows the optics to be positioned closer to the barrel, while greater heights facilitate the use of bulky or specific optics.

Are these rings compatible with all 40mm scopes?

Yes, they are compatible with all glasses with a 40mm center tube.
