Long mount with Picatinny rail for maximum versatility

The **INNOMOUNT QD Long mount** for **Blaser and Sauer 505** interfaces with integrated **Picatinny** rail is designed to offer an extended mounting surface and maximum versatility. Its retractable lever system allows for quick, smooth, and tool-free disassembly, while ensuring excellent repeatability after reassembly. In the field, this extra length is appreciated, providing greater freedom in the positioning of optics and accessories.

- **Interface** : Compatible with Blaser and Sauer 505 rails
- **Rail type** : Integrated Picatinny
- **System** : Secure retractable locking lever
- **Controls** : Push buttons for unlocking
- **Materials** : High-strength aluminum / treated steel

- **Type** : Long Picatinny Rail
- **Height** : 20 mm
- **Total length** : 205 mm
- **Interface** : Blaser / Sauer 505

The INNOMOUNT QD Long mount with Picatinny rail is designed to offer an extended mounting surface and great flexibility of use.

A longer rail for more freedom

Thanks to its **205mm length** , this mount allows for easy positioning of optics and accessories according to your preferences. It's an ideal solution for setups requiring precise adjustment.

A reliable Quick Detach system

The **secure retractable levers** allow for quick, tool-free assembly and disassembly. The push buttons ensure controlled operation and prevent accidental opening.

Robustness and stability

Its **high-strength aluminum** and **treated steel** construction ensures excellent rigidity. In use, the support is firm, stable, and durable, even with heavier equipment.

FAQ

What accessories can be mounted on this rail?

All accessories and optics compatible with the Picatinny standard can be installed.

Does the assembly require any tools?

No, the QD system allows for quick assembly and disassembly without tools.

Is the setting retained after disassembly?

Yes, if the assembly is correctly adjusted, the repeatability of the point of impact is ensured.
