Quick and reliable assembly of dedicated LM rails

The **INNOMOUNT QD mount** for **Blaser and Sauer 505** interfaces, compatible **with LM Rail,** offers a quick and precise mounting solution. Its retractable lever system allows for smooth, tool-free removal while ensuring excellent repeatability of the impact point. In use, the precision of the adjustments and the overall rigidity are appreciated, guaranteeing reliable and consistent support.

- **Interface** : Compatible with Blaser and Sauer 505 rails
- **Optical compatibility** : LM Rail
- **System** : Secure retractable locking lever
- **Controls** : Push buttons for unlocking
- **Materials** : High-strength aluminum / treated steel

- **Compatibility** : LM Rail
- **Height** : 15 mm
- **Total length** : 120 mm
- **Interface** : Blaser / Sauer 505

The INNOMOUNT QD mount for LM Rail is designed to offer a quick, reliable and perfectly adapted attachment for optics equipped with this standard.

A high-performance Quick Detach system

The **secure retractable levers** allow for quick, tool-free assembly and disassembly. The push buttons ensure controlled operation, preventing accidental opening.

LM Rail specific compatibility

This mount is dedicated to optics equipped with the **LM Rail** standard, guaranteeing precise adjustment and optimal integration.

Rigidity and stability

With a **length of 120 mm** and a construction of **high-strength aluminum** and **treated steel** , the assembly ensures reliable and durable support, even in demanding conditions.

FAQ

Is this assembly compatible with other types of rails?

No, this model is specifically designed for optics equipped with an LM rail.

Does the assembly require any tools?

No, the QD system allows for quick assembly and disassembly without tools.

Is the setting retained after disassembly?

Yes, if the assembly is correctly adjusted, the repeatability of the point of impact is ensured.
