Quick and easy mounting of Swarovski SR with optimal precision

The **INNOMOUNT QD mount** for **Blaser and Sauer 505** interfaces, designed for **Swarovski SR** optics, is available in several heights to precisely adapt to different configurations. Its retractable lever system allows for quick, smooth, and tool-free disassembly, while ensuring excellent repeatability of the point of impact. In use, the quality of the adjustments and the overall rigidity are appreciated, ensuring reliable and consistent support.

- **Interface** : Compatible with Blaser and Sauer 505 rails
- **Optical compatibility** : Swarovski SR
- **System** : Secure retractable locking lever
- **Controls** : Push buttons for unlocking
- **Materials** : High-strength aluminum / treated steel

- **Compatibility** : Swarovski SR
- **Available heights** : 10 mm, 20 mm
- **Interface** : Blaser / Sauer 505

The INNOMOUNT QD mount for Swarovski SR is designed to offer a quick, reliable and perfectly adapted fixing to this optical standard.

An efficient Quick Detach system

The **secure retractable levers** allow for quick, tool-free assembly and disassembly. The push buttons ensure controlled operation, preventing accidental opening.

Dedicated Swarovski SR compatibility

This mount is specifically designed for **Swarovski SR** optics, ensuring a precise fit and optimal integration on the weapon.

Reliability and repeatability

Once properly adjusted, the mount ensures excellent **repeatability of the impact point** . In use, the hold is stable, consistent, and durable.

FAQ

Is this setup compatible with other lenses?

No, this model is specifically designed for Swarovski SR optics.

Does the assembly require any tools?

No, the QD system allows for quick assembly and disassembly without tools.

Is the setting retained after disassembly?

Yes, if the assembly is correctly adjusted, the repeatability of the point of impact is ensured.
