### Quick, multi-height mounting for Merkel with reliable precision

The **INNOMOUNT QD mount** for **Merkel** rifles with a 36mm barrel is available in several heights to accommodate different optic configurations. Its retractable lever system allows for quick, smooth, and tool-free disassembly, while ensuring excellent point-of-impact repeatability. In use, it offers precise mechanics and a compact assembly, perfectly suited to the demands of the field.

- **Weapon compatibility** : Merkel rifles
- **System** : Secure retractable locking lever
- **Controls** : Push buttons for unlocking
- **Materials** : High-strength aluminum / treated steel
- **Compatibility** : Glasses with a 36 mm center tube
- **Diameter** : 36 mm
- **Available heights** : 13 mm, 16 mm, 19 mm
- **Ring spacing** : 55 mm
- **Total length** : 115 mm
- **Compatibility** : Merkel

The INNOMOUNT QD mount for Merkel in Ø 36 mm offers a reliable and quick solution for precisely adapting your optics.

#### An efficient Quick Detach system

The **secure retractable levers** allow for quick, tool-free assembly and disassembly. The push buttons ensure controlled operation, preventing accidental opening.

#### A precise fit to your optics

Available in **13mm, 16mm, and 19mm** , this mount allows for fine-tuning the scope's position. In practice, this directly improves aiming comfort and alignment.

### **Compact and robust**

With a **55 mm center-to-center distance** and a **total length of 115 mm** , this mount offers an excellent balance between compactness and stability. Its **high-strength aluminum** and **treated steel** construction ensures optimal durability.

### **FAQ**

#### **Is this assembly compatible with all Merkel models?**

It is designed for Merkel rifles compatible with this specific type of mount.

#### **Does the assembly require any tools?**

No, the QD system allows for quick assembly and disassembly without tools.

#### **Is the setting retained after disassembly?**

Yes, if the assembly is correctly adjusted, the repeatability of the point of impact is ensured.
