### Quick multi-height mounting for 12 mm Prisma rail

The **INNOMOUNT QD mount** for 12mm **Prisma** rails in 40mm diameter is available in several heights to accommodate the most demanding optical configurations. Its retractable lever system allows for quick, smooth, and tool-free removal, while ensuring excellent repeatability of the point of impact. In use, it offers precise mechanics and reassuring rigidity, perfectly suited to the stresses of fieldwork.

- **Rail compatibility** : Prisma 12 mm
- **System** : Secure retractable locking lever
- **Controls** : Push buttons for unlocking
- **Ring spacing** : 62 mm
- **Total length** : 107 mm
- **Materials** : High-strength aluminum / treated steel
- **Compatibility** : Glasses with a 40 mm center tube
  
- **Diameter** : 40 mm
- **Available heights** : 16 mm, 19 mm, 22 mm
- **Ring spacing** : 62 mm
- **Total length** : 107 mm
- **Compatibility** : 12mm Prisma rail

The **INNOMOUNT QD** mount for 12 mm Prisma rail in Ø 40 mm offers a reliable and quick solution for installing your optics.

#### Prisma 12 mm compatibility

Designed for **12mm Prisma** rails, this mount ensures a precise fit and perfect integration on the weapon.

### **A high-performance Quick Detach system**

The **secure retractable levers** allow for quick, tool-free assembly and disassembly. The push buttons ensure controlled operation and prevent accidental opening.

### **Adaptation and stability**

Available in **16mm, 19mm, and 22mm** , this mount allows for precise adjustment of the optic's position. Its **high-strength aluminum** and **treated steel** construction ensures a reliable and durable hold.

## **FAQ**

### **Is this setup compatible with all Prisma rails?**

It is designed specifically for 12mm Prisma rails. You should verify its exact compatibility with your firearm.

### **Does the assembly require any tools?**

No, the QD system allows for quick assembly and disassembly without tools.

### **Is the setting retained after disassembly?**

Yes, if the assembly is correctly adjusted, the repeatability of the point of impact is ensured.
