Quick and precise ZERO mounting for Aimpoint Acro

The **INNOMOUNT ZERO Slight Long mount** for **the Sauer 404,** designed for **Aimpoint Acro** optics, stands out for its remarkable ease of use and consistent precision. Thanks to its **Torque Lock** system, the tightening remains perfectly controlled, even during frequent changes. In use, you'll appreciate this smooth handling - two simple steps are all it takes to mount or remove the optic, without tools.

- **Weapon compatibility** : Sauer 404
- **Optical compatibility** : Aimpoint Acro
- **System** : ZERO with integrated Torque Lock
- **Assembly** : Quick disassembly without tools
- **Materials** : High-strength aluminum / treated steel

- **Compatibility** : Aimpoint Acro
- **Height** : 10 mm
- **Total length** : 120 mm
- **Compatibility** : Sauer 404

The INNOMOUNT ZERO Slight Long mount for Sauer 404, dedicated to Aimpoint Acro optics, offers a fast, reliable and highly precise solution.

ZERO Technology with Torque Lock

The **Torque Lock** system guarantees a constant clamping force, even during repeated use on different weapons. The result: optimal repeatability without complex adjustments.

Quick and easy handling

Two simple movements are all it takes to mount or dismount the lens, without tools. This intuitive operation makes the system accessible even to the least experienced users.

Robust design and low profile

With a **low height of 10 mm** and a **high-strength aluminum** and **treated steel** construction, this mount combines discretion, strength and durability.

FAQ

What does the Torque Lock system offer?

It guarantees a constant clamping force, ensuring optimal repeatability without manual adjustment.

Does the assembly require any tools?

No, it can be assembled and disassembled quickly by hand in a few seconds.

Is this setup compatible with other lenses?

No, it is specifically designed for Aimpoint Acro optics.
