Quick and reliable QD INNOMOUNT mounting for Aimpoint on Sauer

The **INNOMOUNT QD Slight Long mount** for **Sauer 404 and 303** is designed to accommodate red dot sights like the Aimpoint Micro. Compact and low-profile, it ensures seamless optic integration while allowing for quick, tool-free removal. In use, it delivers the precision and smoothness characteristic of high-end mounts.

- **Brand** : INNOMOUNT
- **Compatibility** : Sauer 404 / Sauer 303
- **Type** : QD (Quick Detach) Quick Detachable Mount
- **Optical compatibility** : Aimpoint Micro, Holosun, SIG SAUER Romeo 4 / Romeo 5 / Romeo MSR
- **Supplied with** : 4x N00022 screws
- **Materials** : High-strength aluminum / treated steel
- **System** : retractable levers with push buttons
- **Construction height** : 6 mm
- **Total length** : 120 mm

The **INNOMOUNT QD Slight Long mount,** designed for Aimpoint Micro and compatible optics, allows for the efficient equipping of a Sauer platform with a red dot sight. Its low profile promotes rapid target acquisition - in practice, this translates to a clear improvement in responsiveness.

A discreet and secure QD system

The Quick Detach mechanism relies on two integrated retractable levers. Once locked, they remain perfectly flush, minimizing the risk of snagging or accidental opening. Push-button opening ensures quick and intuitive operation.

Compatibility with Aimpoint Micro standards

This mount is designed to accommodate **Aimpoint Micro** standard lenses as well as numerous alternatives such as **Holosun** or **SIG SAUER Romeo 4, Romeo 5 and Romeo MSR** . A versatile solution for easily adapting your equipment.

Reliable repeatability after disassembly

Once properly adjusted, the assembly guarantees **consistent repeatability** . After disassembly and reassembly, the point of impact remains stable - an essential point for regular use.

Robust construction and low profile

Made from **high-strength aluminum** and **treated steel** , this mount combines lightness and strength. Its low profile (6 mm) promotes a natural and rapid sight picture, perfectly suited for use with a red dot sight.

FAQ

Is this setup compatible with Aimpoint Micro?

Yes, it is specifically designed for Aimpoint Micro standard optics as well as several compatible models.

Can the assembly be disassembled without tools?

Yes, the Quick Detach system allows for quick and tool-free disassembly thanks to the push-button levers.

Does the assembly retain its settings after disassembly?

Yes, once properly adjusted, it ensures excellent repeatability of the point of impact after reassembly.
