Removable Picatinny rail with reliable zero return

The **INNOMOUNT QD Slight Long mount** for **Sauer 404 and 303** with Picatinny interface offers a versatile solution for mounting your optics or accessories. Robust and precise, it allows for quick, tool-free removal while maintaining excellent repeatability. In use, you'll appreciate this freedom of configuration without compromising stability.

- **Brand** : INNOMOUNT
- **Compatibility** : Sauer 404 / Sauer 303
- **Type** : QD (Quick Detach) Quick Detachable Mount
- **Interface** : Picatinny Rail
- **Materials** : High-strength aluminum / treated steel
- **System** : retractable levers with push buttons

- **Construction height** : 12 mm
- **Total length** : 120 mm

The **INNOMOUNT QD Slight Long Picatinny mount** transforms your Sauer platform into a universal base. It allows for the quick installation of various Picatinny-compatible lenses or accessories - a flexibility that is appreciated whenever you switch between different uses.

A secure Quick Detach system

The QD mechanism relies on two integrated retractable levers. Once locked, they remain perfectly flush, preventing any accidental opening. Activation via push buttons ensures quick and easy operation, even in field conditions.

Versatility thanks to the Picatinny rail

The **Picatinny** rail offers broad compatibility with a wide range of optics and accessories. This modularity allows you to easily adapt your configuration to your needs, without any specific mounting constraints.

Reliable repeatability after disassembly

Once correctly adjusted, the assembly guarantees **consistent repeatability** . After disassembly and reassembly, the positioning remains precise - a key point for maintaining settings without wasting time.

Robust and balanced construction

Made from **high-strength aluminum** and **treated steel** , this assembly ensures excellent durability. It remains lightweight while offering reassuring rigidity - a balance that is immediately noticeable in hand.

FAQ

Is this mount compatible with all Picatinny optics?

Yes, it is designed to accommodate any accessory or optic compatible with a standard Picatinny rail.

Can the assembly be disassembled without tools?

Yes, the Quick Detach system allows for quick tool-free disassembly thanks to the push-button levers.

Does the assembly retain its settings after disassembly?

Yes, once correctly adjusted, it ensures excellent repeatability of positioning after reassembly.
