- **Interface** : Picatinny Rail
- **Materials** : High-strength aluminum / treated steel
- **System** : retractable levers with push buttons

- **Construction height** : 20 mm
- **Total length** : 135 mm
- **Usable rail length** : 120 mm
- **Weight** : 166 g

The **INNOMOUNT QD Picatinny mount** allows you to fully utilize the modularity of a standard rail on a Sauer platform. It provides a stable base for installing different optics or accessories - a real advantage whenever you want to upgrade your configuration.

A reliable and secure QD system

The mechanism relies on two retractable locking levers. Once in place, they remain flush, minimizing any risk of accidental opening. Push-button activation allows for quick and intuitive operation - a detail immediately appreciated in the field.

Versatility of the Picatinny rail

Thanks to its 120mm **Picatinny rail** , this mount offers great positioning freedom for your lenses and accessories. You can adjust it precisely to your needs, without any specific compatibility constraints.

Constant repeatability

After disassembly and reassembly, the assembly returns to its precise position. Provided the tightening is correctly adjusted, the point of impact remains stable - an essential point for regular users.

Robust and balanced construction

Made from **high-strength aluminum** and **treated steel** , this assembly combines strength and lightness. Upon handling, the whole thing inspires confidence - it's clean, rigid, and perfectly fitted.

FAQ

Is this mount compatible with all Picatinny accessories?

Yes, it is designed to accommodate any accessory or optic compatible with a standard Picatinny rail.

Can the assembly be removed without tools?

Yes, the Quick Detach system allows for quick tool-free disassembly thanks to the push-button levers.

Is the setting retained after disassembly?

Yes, once correctly adjusted, the assembly ensures excellent repeatability of positioning after reassembly.
