The **INNOMOUNT QD mount for Swarovski SR** allows for direct optic attachment without rings. This low-profile mount promotes a natural sight line and improved shoulder feel - a detail quickly noticeable in use.

A discreet and efficient Quick Detach system

The QD mechanism relies on two perfectly integrated retractable levers. Once locked, they remain flush, preventing accidental opening. Activation via push buttons ensures quick, simple, and secure operation.

Swarovski SR Interface

The **Swarovski SR** standard allows for direct mounting of compatible optics, without the need for additional rings. The result: a lower, more rigid, and perfectly aligned mount - ideal for fully exploiting the optic's performance.

Constant repeatability

After disassembly and reassembly, the assembly returns to its precise position. If the tightening is correctly adjusted, the point of impact remains stable - an essential point for regular use.

Robust and balanced construction

Made from **high-strength aluminum** and **treated steel** , this assembly ensures excellent durability. Upon handling, the whole thing inspires confidence - it's clean, rigid, and perfectly fitted.

FAQ
