The **INNOMOUNT QD mount for Zeiss ZM/VM** allows for direct optic attachment without rings or adapters. Its very low profile promotes a natural sight line - improving comfort and speed without even thinking about it.

A discreet and secure QD system

The Quick Detach mechanism relies on two integrated retractable levers. Once locked, they remain flush, minimizing the risk of accidental opening. Activation via push buttons allows for quick, simple, and reliable operation.

Zeiss ZM/VM Interface

The **Zeiss ZM/VM** standard allows for direct mounting of compatible optics. The result: a lower, more rigid, and perfectly aligned mount - a real advantage in terms of precision and ergonomics.

Constant repeatability

After disassembly and reassembly, the assembly returns to its precise position. If the tightening is correctly adjusted, the point of impact remains stable - a key point for demanding users.

Robust and balanced construction

Made from **high-strength aluminum** and **treated steel** , this assembly ensures excellent durability. Upon handling, the whole thing inspires confidence - it's clean, rigid, and play-free.
