QD INNOMOUNT Ø30 mount for Tikka/Sako, durable precision

The **INNOMOUNT QD mount** for **Tikka T3/T3x and Sako TRG** 30mm eyepieces is designed to meet the demands of modern optics. It allows for quick, tool-free mounting and dismounting while ensuring excellent repeatability. In use, it delivers the precision and stability characteristic of premium mounts.

- **Brand** : INNOMOUNT
- **Compatibility** : Tikka T3 / T3x, Sako TRG 21 / 22 / 41 / 42
- **Type** : QD (Quick Detach) Quick Detachable Mount
- **Necklace diameter** : 30 mm
- **Materials** : High-strength aluminum / treated steel
- **System** : retractable levers with push buttons

- **Available heights** : 16 mm (standard), 19 mm, 22 mm, 25 mm
- **Necklace diameter** : 30 mm
- **Collar width** : 15 mm
- **Collar spacing** : 86 mm
- **Total length** : 138 mm
- **Weight** : 150 to 180 g depending on the version

The **INNOMOUNT QD mount** in Ø30 mm for Tikka and Sako TRG scopes allows you to fully utilize large-tube optics. It offers a reliable solution for quickly installing, removing, or replacing a scope - a real advantage for demanding users.

A reliable Quick Detach system

The QD mechanism relies on two integrated retractable levers. Once locked, they remain flush, minimizing any risk of accidental opening. Activation via push buttons allows for quick and intuitive operation - simple and efficient.

Constant repeatability

After disassembly and reassembly, the assembly returns to its precise position. If the tightening is correctly adjusted, the point of impact remains stable - an essential point for maintaining settings without wasting time.

Four height settings for a precise adjustment

Available in **16, 19, 22, and 25 mm** , this mount allows for perfect adjustment of the scope's position. The line of sight can be adjusted according to the optics and the user's physique, without compromise.

Robust and balanced construction

Made from **high-strength aluminum** and **treated steel** , this assembly offers excellent durability. Upon handling, the assembly feels rigid and perfectly fitted - a quality that is immediately noticeable.

FAQ

Is this mount compatible with 30mm lenses?

Yes, this version is specifically designed for glasses with a 30mm tube.

Does the assembly retain its settings after disassembly?

Yes, once properly adjusted, it guarantees excellent repeatability of the point of impact after reassembly.

What height should I choose?

The choice depends on the diameter of your lens and your viewing comfort. Greater heights offer more clearance for larger lenses.
