QD INNOMOUNT Ø34 mount for Tikka/Sako, maximum stability

The **INNOMOUNT QD mount** for **Tikka T3/T3x and Sako TRG** 34mm eyepieces is designed for large-tube optics requiring rigidity and precision. It allows for quick, tool-free disassembly while maintaining excellent repeatability. In use, the stability and build quality are immediately apparent.

- **Brand** : INNOMOUNT
- **Compatibility** : Tikka T3 / T3x, Sako TRG 21 / 22 / 41 / 42
- **Type** : QD (Quick Detach) Quick Detachable Mount
- **Collar diameter** : 34 mm
- **Materials** : High-strength aluminum / treated steel
- **System** : retractable levers with push buttons

- **Available heights** : 16 mm (standard), 22 mm, 25 mm
- **Collar diameter** : 34 mm
- **Collar width** : 15 mm
- **Collar spacing** : 86 mm
- **Total length** : 138 mm
- **Weight** : 150 to 180 g depending on the version

The **INNOMOUNT QD mount** in Ø34 mm for Tikka and Sako TRG scopes allows you to fully utilize large-tube optics. It provides a solid and reliable base for quickly mounting or removing a scope, without compromising accuracy.

A reliable Quick Detach system

The mechanism relies on two integrated retractable levers. Once locked, they remain flush, minimizing the risk of accidental opening. Activation via push buttons allows for quick, simple, and efficient operation.

Constant repeatability

After disassembly and reassembly, the assembly returns to its precise position. If the tightening is correctly adjusted, the point of impact remains stable - a key point for demanding users.

Three heights for optimal adjustment

Available in **16, 22, and 25 mm** , this mount allows for precise adjustment of the scope's position. The line of sight can be adjusted according to your optics and shooting comfort, without compromise.

Robust and balanced construction

Made from **high-strength aluminum** and **treated steel** , this assembly ensures excellent durability. Upon handling, the assembly feels rigid and perfectly fitted - a quality that is immediately apparent.

FAQ

Is this mount compatible with 34mm glasses?

Yes, this version is specifically designed for glasses with a 34mm tube.

Does the assembly retain its settings after disassembly?

Yes, once properly adjusted, it guarantees excellent repeatability of the point of impact after reassembly.

What height should I choose?

The choice depends on the diameter of your objective lens and your shooting position. Greater heights offer more clearance for larger optics.
