QD INNOMOUNT Ø40 mount for Tikka/Sako, extreme stability

The **INNOMOUNT QD mount** for **Tikka T3 / T3x and Sako TRG** 40mm optics is designed for the largest optics. It ensures optimal support while allowing for quick, tool-free removal. In use, the overall rigidity and precision of the machining are immediately apparent.

- **Brand** : INNOMOUNT
- **Compatibility** : Tikka T3 / T3x, Sako TRG 21 / 22 / 41 / 42
- **Type** : QD (Quick Detach) Quick Detachable Mount
- **Collar diameter** : 40 mm
- **Materials** : High-strength aluminum / treated steel
- **System** : retractable levers with push buttons

- **Available heights** : 16 mm (standard), 19 mm, 22 mm
- **Collar diameter** : 40 mm
- **Collar width** : 15 mm
- **Collar spacing** : 86 mm
- **Total length** : 138 mm
- **Weight** : 150 to 180 g depending on the version

The **INNOMOUNT QD mount** in 40mm diameter for Tikka and Sako TRG rifles is designed for the most demanding setups. It offers an extremely stable base for quickly mounting or removing a scope, without compromising accuracy.

A reliable Quick Detach system

The mechanism relies on two integrated retractable levers. Once locked, they remain flush, minimizing any risk of accidental opening. Activation via push buttons allows for quick, simple, and efficient operation.

Constant repeatability

After disassembly and reassembly, the assembly returns to its precise position. If the tightening is correctly adjusted, the point of impact remains stable - an essential point for demanding users.

Three height settings for a precise adjustment

Available in **16, 19, and 22 mm** , this mount allows for perfect adjustment of the scope's position. The line of sight can be adjusted according to your optics and shooting comfort, without compromise.

Robust and balanced construction

Made from **high-strength aluminum** and **treated steel** , this assembly ensures excellent durability. Upon handling, the assembly feels rigid and perfectly fitted - a quality that is immediately noticeable.

FAQ

Is this mount compatible with 40mm lenses?

Yes, this version is specifically designed for glasses with a 40mm tube.

Does the assembly retain its settings after disassembly?

Yes, once properly adjusted, it guarantees excellent repeatability of the point of impact after reassembly.

The choice depends on the diameter of your objective lens and your shooting position. Greater heights offer more clearance for larger optics.
