- **System** : retractable levers with push buttons

- **Construction height** : 20 mm
- **Total length** : 138 mm
- **Weight** : 150 to 180 g depending on the version

The **INNOMOUNT QD Picatinny mount** transforms your Tikka or Sako TRG platform into a universal base. It allows for the quick installation of various compatible lenses and accessories - a real advantage for adapting your setup to different uses.

A reliable Quick Detach system

The QD mechanism relies on two integrated retractable levers. Once locked, they remain flush, minimizing any risk of accidental opening. Activation via push buttons allows for quick and intuitive operation - simple and efficient.

Versatility of the Picatinny rail

The **Picatinny** rail offers broad compatibility with a wide range of optics and accessories. This modularity allows you to easily adapt your equipment without any specific constraints.

Constant repeatability

After disassembly and reassembly, the assembly returns to its precise position. If the tightening is correctly adjusted, the point of impact remains stable - a key point for maintaining the settings.

Robust and balanced construction

Made from **high-strength aluminum** and **treated steel** , this assembly ensures excellent durability. Upon handling, the assembly feels rigid and perfectly fitted - a quality that is immediately apparent.

FAQ

Is this mount compatible with all Picatinny accessories?

Yes, it is designed to accommodate any accessory or optic compatible with a standard Picatinny rail.

Can the assembly be removed without tools?

Yes, the Quick Detach system allows for quick tool-free disassembly thanks to the push-button levers.

Is the setting retained after disassembly?

Yes, once correctly adjusted, the assembly guarantees excellent repeatability of positioning after reassembly.
