The **INNOMOUNT QD mount for Zeiss ZM/VM** allows direct attachment of the optic to the Tikka and Sako TRG platforms. Its low profile promotes a natural sight line - an advantage immediately noticeable when shouldering the rifle.

A reliable Quick Detach system

The mechanism relies on two integrated retractable levers. Once locked, they remain flush, minimizing any risk of accidental opening. Activation via push buttons allows for quick, simple, and efficient operation.

Zeiss ZM/VM Interface

The **Zeiss ZM/VM** standard allows for direct mounting of compatible optics, without rings. The result: a lower, more rigid, and perfectly aligned mount - a real gain in precision and comfort.

Constant repeatability

After disassembly and reassembly, the assembly returns to its precise position. If the tightening is correctly adjusted, the point of impact remains stable - an essential point for demanding users.

Robust and balanced construction

Made from **high-strength aluminum** and **treated steel** , this assembly ensures excellent durability. Upon handling, the assembly feels rigid and perfectly fitted - a quality that is immediately noticeable.
