SKU	Designation	French Law	Length (cm)	Height (cm)	Colors	Mounting	MSRP
IMP0037	Picatinny/blazer rail for A-BOLT3 LA	Vente libre	15.1	8.5	Black	21mm rail	255.00 € incl. tax

Hybrid Picatinny/Blaser rail, maximum flexibility

The **INNOMOUNT Multirail** for **Blaser FN Browning Mod. A - Bolt 3 LA** cleverly combines a **Picatinny** rail with Blaser mount compatibility. This hybrid solution offers maximum flexibility while ensuring a robust and reliable attachment. In use, this versatility is appreciated, opening up numerous configuration possibilities.

- **Brand** : INNOMOUNT
- **Compatibility** : Blaser FN Browning Mod. A - Bolt 3 LA
- **Type** : Hybrid Picatinny / Blaser rail
- **Supplied with** : 4x N00001 screws
- **Materials** : hardened bronzed steel

- **Height** : 8.5 mm
- **Total length** : 151.5 mm
- **Dimension A** : 21.84 mm
- **Dimension B** : 98.1 mm
- **Dimension C** : 21.84 mm
- **Weight** : approx. 135 g

The **INNOMOUNT Multirail** combines the advantages of a classic Picatinny rail with the compatibility of Blaser mounts. This hybrid design allows the use of different types of optics without changing bases - a real time-saver and a great source of flexibility.

Two systems in a single assembly

This rail combines a standard **Picatinny** interface with the ability to directly use Blaser mounts. The result: a scalable solution, capable of adapting to different optics and needs without constraint.

Accuracy and repeatability

The precision-machined cross profiles ensure consistent optics positioning. In use, the fit is secure and play-free - exactly what you need to maintain your settings over time.

Hardened steel construction

Made from **hardened, bronze-plated steel** , this rail offers high resistance to mechanical stress. Even with powerful calibers, the assembly remains perfectly stable - a reassuring feature in the field.

Versatility and scalability

This hybrid system allows for easy configuration upgrades. You can switch from one setup to another without having to reconsider the entire system - a flexibility that is appreciated in the long run.

FAQ

What is the advantage of a hybrid Picatinny/Blaser rail?

It allows the use of both standard Picatinny mounts and Blaser mounts, offering great flexibility of use.

Is this rail suitable for powerful calibers?

Yes, its hardened steel construction ensures excellent strength and optimal stability, even with demanding calibers.

Does the setup guarantee good repeatability?

Yes, the precision-machined profiles ensure reliable retention and consistent repeatability of the optics' positioning.
