Hybrid Picatinny/Blaser rail for Bolt 3 SA

The **INNOMOUNT Multirail** for **Blaser FN Browning Mod. A - Bolt 3 SA** cleverly combines a **Picatinny** rail with Blaser mount compatibility. This hybrid solution allows you to use different systems without compromising stability. In practice, this versatility is appreciated, truly simplifying setups.

- **Brand** : INNOMOUNT
- **Compatibility** : Blaser FN Browning Mod. A - Bolt 3 SA
- **Type** : Hybrid Picatinny / Blaser rail
- **Supplied with** : 4x N00001 screws
- **Materials** : hardened bronzed steel

- **Height** : 8.5 mm
- **Total length** : 136 mm
- **Dimension A** : 21.84 mm
- **Dimension B** : 82.6 mm
- **Dimension C** : 21.84 mm
- **Weight** : approx. 135 g

The **INNOMOUNT Multirail** combines the advantages of a standard Picatinny rail with direct compatibility with Blaser mounts. This hybrid design allows the use of different optics without changing bases - a real time-saver and simplifies setup.

Two systems in a single assembly

This rail allows the use of both **Picatinny** accessories and Blaser mounts. This dual compatibility offers great configuration freedom, whether for adapting your optics or upgrading your equipment.

Accuracy and reliable support

The precision-machined profiles ensure consistent optics positioning. In use, the fit is secure and play-free - exactly what you need to maintain your settings over time.

Hardened steel construction

Made from **hardened, bronze-plated steel** , this rail guarantees excellent resistance to mechanical stress. Even under demanding conditions or with powerful calibers, the assembly remains perfectly stable.

A scalable solution

This system allows for easy upgrades to your equipment. You can switch from one setup to another without having to reconsider the entire configuration - a flexibility that is appreciated in the long run.

FAQ

What is the advantage of a hybrid Picatinny/Blaser rail?

It allows the use of both Picatinny and Blaser mounts, offering great flexibility of use.

Is this rail suitable for demanding conditions?

Yes, its hardened steel construction ensures excellent strength and optimal stability, even under intensive use.

Does the setup guarantee good repeatability?

Yes, the precision-machined profiles ensure reliable retention and consistent repeatability of the optics' positioning.
