Picatinny/Blaser hybrid rail for Benelli Lupo

The **INNOMOUNT Multirail** for **Blaser Benelli Lupo** combines a classic **Picatinny** rail with Blaser mount compatibility. This hybrid solution allows you to use multiple systems on a single base, while maintaining exceptional rigidity. In use, this versatility is a real plus, truly simplifying setups.

- **Brand** : INNOMOUNT
- **Compatibility** : Benelli Lupo
- **Type** : Hybrid Picatinny / Blaser rail
- **Supplied with** : 4x N00001 screws
- **Materials** : hardened bronzed steel

- **Height** : 8.5 mm
- **Total length** : 158.7 mm
- **Dimension A** : 21.9 mm
- **Dimension B** : 96.9 mm
- **Dimension C** : 21.9 mm
- **Weight** : approx. 135 g

The **INNOMOUNT Multirail** allows the use of both Picatinny optics and Blaser mounts on the same platform. An ideal solution for quickly adapting your equipment without multiplying interfaces.

Two systems in a single assembly

This hybrid rail combines a classic **Picatinny** interface with Blaser mount compatibility. The result: maximum flexibility to configure your weapon according to your needs - without technical constraints.

Accuracy and reliable support

The precision-machined cross profiles ensure consistent optics positioning. In use, the fit is secure and play-free - exactly the kind of detail that inspires confidence.

Hardened steel construction

Made from **hardened, bronze-plated steel** , this rail guarantees excellent resistance to mechanical stress. Even under demanding conditions, the assembly remains perfectly stable.

A scalable solution

This system allows for easy configuration upgrades. You can switch from one setup to another without a complete overhaul - a flexibility that is appreciated in the long run.

FAQ

What is the advantage of a hybrid Picatinny/Blaser rail?

It allows the use of both standard Picatinny mounts and Blaser mounts, offering great flexibility of use.

Is this rail suitable for demanding conditions?

Yes, its construction from hardened steel ensures excellent resistance and optimal stability, even under intensive use.

Does the setup guarantee good repeatability?

Yes, the precision-machined profiles ensure reliable retention and consistent repeatability of the optics' positioning.
