Picatinny/Blaser hybrid rail for Benelli Lupo

The **INNOMOUNT Multirail** for **Blaser Beretta BRX1** combines a **Picatinny** rail with Blaser mount compatibility. This hybrid solution offers great configuration freedom while ensuring a robust and durable mount. In use, this versatility is appreciated, truly simplifying optic mounting.

- **Brand** : INNOMOUNT
- **Compatibility** : Beretta BRX1
- **Type** : Hybrid Picatinny / Blaser rail
- **Supplied with** : 4x screws N00066
- **Materials** : hardened bronzed steel

- **Height** : 7.5 mm
- **Total length** : 162 mm
- **Dimension A** : 36.5 mm
- **Dimension B** : 26.5 mm
- **Dimension C** : 26.5 mm
- **Weight** : approx. 135 g

The **INNOMOUNT Multirail** allows the use of both Picatinny optics and Blaser mounts on the same platform. An ideal solution for quickly adapting your equipment without multiplying interfaces.

Two systems in a single assembly

This hybrid rail combines a classic **Picatinny** interface with Blaser mount compatibility. The result: maximum flexibility to configure your weapon according to your needs - without technical constraints.

Accuracy and reliable support

The precision-machined cross profiles ensure consistent optics positioning. In use, the fit is secure and play-free - essential for maintaining settings.

Hardened steel construction

Made from **hardened, bronze-plated steel** , this rail guarantees excellent resistance to mechanical stress. Even under demanding conditions, the assembly remains perfectly stable.

A scalable solution

This system allows for easy configuration upgrades. You can switch from one setup to another without having to change the entire system - a flexibility that is appreciated in the long run.

FAQ

What is the advantage of a hybrid Picatinny/Blaser rail?

It allows the use of both Picatinny and Blaser mounts, offering great flexibility of use.

Is this rail suitable for heavy-duty use?

Yes, its hardened steel construction ensures excellent strength and optimal stability, even in demanding conditions.

Does the setup guarantee good repeatability?

Yes, the precision-machined profiles ensure reliable retention and consistent repeatability of the optics' positioning.
