Hybrid Picatinny/Blaser rail for Remington 700 SA

The **INNOMOUNT Multirail** for **Blaser Remington 700 Short Action** combines a **Picatinny** rail with Blaser mount compatibility. This hybrid solution allows you to use multiple systems on a single base, while maintaining excellent rigidity. In use, this versatility is a real plus, truly simplifying setups.

- **Brand** : INNOMOUNT
- **Compatibility** : Remington 700 Short Action
- **Type** : Hybrid Picatinny / Blaser rail
- **Supplied with** : 4x N00001 screws
- **Materials** : hardened bronzed steel

INNOMOUNT develops mounting solutions renowned for their **precision** , **robustness** , and **versatility** . The German brand designs reliable products, built to last and adapt to the demands of the field. In use, this quality of machining and mechanical precision is immediately apparent.

- **Height** : 8.5 mm
- **Total length** : 139 mm
- **Dimension A** : 21.9 mm
- **Dimension B** : 92.2 mm
- **Dimension C** : 15.3 mm
- **Weight** : approx. 135 g

The **INNOMOUNT Multirail** combines the advantages of a classic Picatinny rail with Blaser mount compatibility. This hybrid design allows for easy configuration changes - a real gain in flexibility for everyday use.

Two systems in a single assembly

This hybrid rail allows the use of both **Picatinny** accessories and Blaser mounts. The result: a wide range of choices to adapt your optics to your needs.

Stability and repeatability

The precision-machined profiles ensure consistent optical support. Even under stress, positioning remains reliable - this is exactly the kind of detail that is validated in the field.

Hardened steel construction

Made from **hardened, bronze-plated steel** , this rail offers excellent resistance to mechanical stress. Even with powerful calibers, the assembly remains stable and durable.

Versatility and scalability

This system allows for easy upgrades to your equipment. You can switch from one setup to another without a complete overhaul - a flexibility that is appreciated in the long run.

FAQ

What is the advantage of a hybrid Picatinny/Blaser rail?

It allows the use of both Picatinny and Blaser mounts, offering great flexibility of use.

Is this rail suitable for powerful calibers?

Yes, its hardened steel construction ensures excellent strength and optimal stability, even under high stress.

Does the setup guarantee good repeatability?

Yes, the precision-machined profiles ensure reliable retention and consistent repeatability of the optics' positioning.
