## Discreet quick mount for Aimpoint Micro

The **INNOMOUNT QD Slight mount** for **the Sauer 303 (SN series R)** is designed for compact optics such as the Aimpoint Micro. Its ultra-low profile and quick-release system ensure seamless integration and intuitive handling. In use, the synergy between the rifle and the optic is immediately apparent.

- **Brand** : INNOMOUNT
- **Weapon compatibility** : Sauer 303 (SN series R)
- **Optical compatibility** : Aimpoint Micro, Holosun, SIG SAUER Romeo 4/5/MSR
- **Type** : quick assembly QD (Quick Detach)
- **Supplied with** : 4x screws N00062
- **Materials** : High-strength aluminum / hardened steel

- **Type** : QD (Quick Detach)
- **Construction height** : 4 mm
- **Total length** : 52 mm
- **Weight** : 150 g

The **INNOMOUNT QD Slight mount** features a quick-release system with a retractable double lever. It opens easily via two push buttons, while remaining secure against accidental operation.

### Fast and accurate QD system

The **Quick Detach** mechanism allows for virtually tool-free assembly and disassembly. Once correctly adjusted, repeatability is guaranteed - you can disassemble, reassemble, and the setting remains constant.

### Ultra-low profile

With **a height of only 4 mm** , this mount promotes a natural aiming position. In the field, this translates into fast and smooth target acquisition.

**Integrated security**

The levers are recessed to prevent accidental opening. It's discreet, but above all, very effective in use.

**Extended compatibility**

This model is compatible with **Aimpoint Micro** format lenses. A versatile solution for easily adapting your equipment.

**FAQ**

**Is this setup compatible with Aimpoint Micro lenses?**

Yes, it is compatible with Aimpoint Micro, Holosun as well as SIG SAUER Romeo 4, 5 and MSR.

**Does the QD system retain its settings after disassembly?**

Yes, once properly adjusted, the assembly guarantees excellent repeatability of the point of impact after reassembly.

**Can the assembly open accidentally?**

No, the levers are secured and recessed, preventing any unintentional opening.
