- **Materials** : High-strength aluminum / hardened steel

- **Type** : QD (Quick Detach)
- **Construction height** : 5 mm
- **Total length** : 46 mm
- **Weight** : 150 g

The **INNOMOUNT QD Slight mount** is distinguished by its quick-release system with a retractable double lever. It opens via two push buttons, while remaining secure against accidental opening.

Reliable and fast QD system

The **Quick Detach** mechanism allows for virtually tool-free assembly and disassembly. Once correctly adjusted, it ensures excellent repeatability - you can disassemble, reassemble, and the stitch remains consistent.

Optimized low profile

With a height of only **5 mm** , this mount promotes a natural aiming grip. In the field, this translates into quick and instinctive target acquisition.

Integrated security

The levers are recessed to prevent any unintentional opening. This discreet detail makes all the difference in dynamic situations.

Extended compatibility

This model is compatible with many **Docter** standard red dot sights. A versatile solution for easily adapting your equipment.

FAQ

Is this mount compatible with Docter-type optics?

Yes, it is compatible with Docter, Noblex, Leica Tempus, Vortex, Burris FastFire and Kahles Helia RD.

Does the QD system retain its settings after disassembly?

Yes, once properly adjusted, the assembly guarantees excellent repeatability of the point of impact after reassembly.

Is the assembly secure?

Yes, the levers are recessed and operated by push buttons, preventing any unintentional opening.
