- **Weight** : 150 to 180 g depending on the version

The **INNOMOUNT QD Slight mount** features a quick-release system with a retractable double lever. It opens via two push buttons, while remaining secure against accidental operation.

Fast and accurate QD system

The **Quick Detach** mechanism allows for virtually tool-free assembly and disassembly. Once correctly adjusted, repeatability is guaranteed - you can disassemble, reassemble, and the setting remains constant.

Optimized low profile

With **a height of only 5 mm** , this mount promotes a natural aiming grip. In the field, this is immediately noticeable through faster target acquisition.

Integrated security

The levers are recessed to prevent accidental opening. It's discreet, but essential for safe and easy use.

Extended compatibility

This model is compatible with **Aimpoint Micro** format lenses. A versatile solution for easily adapting your equipment.

FAQ

Is this setup compatible with Aimpoint Micro?

Yes, it is compatible with Aimpoint Micro, Holosun as well as SIG SAUER Romeo 4, 5 and MSR.

Does the QD system retain its settings after disassembly?

Yes, once properly adjusted, the assembly guarantees excellent repeatability of the point of impact after reassembly.

Is the assembly secure?

Yes, the levers are recessed and operated by push buttons, preventing any unintentional opening.
