QD mount for Picatinny rail and Swarovski SR rail

The **INNOMOUNT QD Weaver/Picatinny rail** mount with **Swarovski SR** interface offers a reliable and elegant solution for high-end optics. Designed for quick and precise mounting, it ensures seamless integration between the rifle and the optic. This reassuring stability is immediately apparent in use.

- **Brand** : INNOMOUNT
- **Rail compatibility** : Weaver / Picatinny
- **Interface** : Swarovski SR
- **Type** : quick assembly QD (Quick Detach)
- **Materials** : High-strength aluminum / hardened steel

- **Type** : QD (Quick Detach)
- **Construction height** : 8 mm
- **Total length** : 142 mm
- **Distance between clamping axes** : 110 mm
- **Weight** : 150 to 180 g depending on the version

The **INNOMOUNT QD assembly** incorporates a retractable double-lever system, controlled by push buttons. This device allows for rapid opening while ensuring maximum safety against any unintentional manipulation.

Precise and reproducible QD system

The **Quick Detach** mechanism allows for rapid assembly and disassembly, virtually without tools. Once adjusted, it ensures excellent repeatability of the point of impact.

Swarovski SR Interface

Designed for **Swarovski SR** rail optics, this mount guarantees perfect alignment and optimal support. In use, everything fits together naturally.

Integrated security

The levers are recessed to prevent accidental opening. It's discreet, but essential for reliable use in the field.

Sturdy construction

Made from **high-strength aluminum** with hardened steel components, this assembly withstands the most demanding stresses while maintaining a low weight.

FAQ

Is this setup compatible with Picatinny rails?

Yes, it is compatible with standard Weaver and Picatinny rails.

What is the Swarovski SR interface?

This is a specific rail integrated into the Swarovski optics, allowing direct mounting without collars.

Does the assembly retain its settings after disassembly?

Yes, once properly adjusted, it guarantees excellent repeatability of the point of impact.
