Raised QD mount for Picatinny rail and Swarovski SR

The **INNOMOUNT QD Weaver/Picatinny rail** mount with a **Swarovski SR** interface, in a **20mm raised** version, offers an ideal solution for adjusting sight height. Robust and precise, it guarantees quick mounting while maintaining perfect repeatability. In use, this extra height clearly improves shooting comfort.

- **Brand** : INNOMOUNT
- **Rail compatibility** : Weaver / Picatinny
- **Interface** : Swarovski SR
- **Type** : quick assembly QD (Quick Detach)
- **Materials** : High-strength aluminum / hardened steel

- **Type** : QD (Quick Detach)
- **Construction height** : 20 mm
- **Total length** : 142 mm
- **Distance between clamping axes** : 110 mm
- **Weight** : 150 g

The **INNOMOUNT QD assembly** incorporates a retractable double-lever system, controlled by push buttons. Opening is quick, while remaining perfectly secure against any unintentional manipulation.

Precise and reproducible QD system

The **Quick Detach** mechanism allows for rapid assembly and disassembly, virtually without tools. Once properly adjusted, it ensures excellent repeatability of the point of impact.

20mm raised version

This **20mm CH** version allows for increased aiming height. In practice, this improves comfort, particularly with certain configurations or shooting positions.

Swarovski SR Interface

Designed for **Swarovski SR** rail optics, this mount guarantees perfect alignment and optimal support. Everything fits together precisely.

Safety and robustness

The recessed levers prevent accidental opening. Combined with a **high-strength aluminum** and hardened steel construction, the assembly remains reliable over time.

FAQ

Is this setup compatible with Picatinny rails?

Yes, it is compatible with standard Weaver and Picatinny rails.

What is the advantage of a height of 20 mm?

It allows for improved aiming comfort depending on the shooter's morphology or the weapon's configuration.

Does the assembly retain its settings after disassembly?

Yes, once properly adjusted, it guarantees excellent repeatability of the point of impact.
