QD mount for Picatinny and Zeiss ZM/VM rail

The **INNOMOUNT QD Weaver/Picatinny rail** mount with **Zeiss ZM/VM** interface offers a high-end solution for fast and precise mounting. Designed for seamless integration with the optics, it ensures excellent stability and intuitive handling. In use, everything becomes simple - and above all, reliable.

- **Brand** : INNOMOUNT
- **Rail compatibility** : Weaver / Picatinny
- **Interface** : Zeiss ZM / VM
- **Type** : quick assembly QD (Quick Detach)
- **Materials** : High-strength aluminum / hardened steel

- **Type** : QD (Quick Detach)
- **Construction height** : 7 mm
- **Total length** : 142 mm
- **Distance between clamping axes** : 110 mm
- **Weight** : 150 to 180 g depending on the version

The **INNOMOUNT QD mounting system** uses a retractable double lever mechanism, controlled by push buttons. Opening is quick, while remaining perfectly secure against any unintentional manipulation.

Precise and reproducible QD system

The **Quick Detach** mechanism allows for rapid assembly and disassembly, virtually without tools. Once properly adjusted, it ensures excellent repeatability of the point of impact.

Zeiss ZM/VM Interface

Designed for **Zeiss ZM/VM** rail optics, this mount ensures perfect alignment and optimal retention. In use, everything fits together precisely.

Integrated security

The levers are recessed to prevent accidental opening. It's a subtle detail, but essential for reliable operation.

Sturdy construction

Made from **high-strength aluminum** with hardened steel components, this assembly withstands the most demanding stresses while maintaining a low weight.

FAQ

Is this setup compatible with Picatinny rails?

Yes, it is compatible with standard Weaver and Picatinny rails.

What is the Zeiss ZM/VM interface?

This is a specific Zeiss rail allowing direct mounting without collars for certain optics.

Does the assembly retain its settings after disassembly?

Yes, once properly adjusted, it guarantees excellent repeatability of the point of impact.
