A versatile, immediately operational, non-lethal defense solution

The **Stronghold P7** in **.50** caliber is a modern non-lethal defense solution designed for quick and intuitive use. Powered by a **12g CO2** cartridge, it accepts a wide range of ammunition (rubber, pepper, powder, paintball), offering true versatility. Its mixed metal/polymer construction ensures a good balance between robustness and maneuverability.

- **Caliber** : .50 (12.7 mm)
- **Capacity** : 7-round magazine
- **Food** : 12 g CO2 capsule
- **Ammunition** : rubber, rubber-metal, pepper, powder, paintball
- **Energy** : 11 joules
- **Initial velocity** : 156.7 m/s
- **Effective range** : up to 20 m
- **Safety** : double trigger
- **CO2 System** : Quick Cap Puncture
- **Equipment** : RIS rail, fixed sights

- **Length** : 240 mm
- **Weight** : 645 g

The Stronghold P7 in .50 caliber stands out for its versatility and efficiency-oriented design. Compact and well-balanced, it meets the needs of a modern non-lethal defense solution.

A versatile platform

This model accepts different types of ammunition: rubber balls, pepper balls, or paintballs. In practice, this allows for adapting its use to the context - a real advantage on the field.

Innovative Quick Cap CO2 System

Instantaneous pressurization

The **Quick Cap Puncture** system allows the CO2 capsule to be activated with a simple press. This allows the equipment to be transported ready to use without the immediate need for pressurization.

Ergonomics and safety

Optimized handling

The textured handle provides excellent grip. It's exactly the kind of detail you notice from the very first use.

Double secure trigger

The double trigger system limits accidental starts while remaining quick to engage.

Full tactical gear

The **RIS** rail under the barrel allows for the addition of accessories such as a light or laser. The fixed sights ensure rapid target acquisition.

FAQ

What ammunition can the Stronghold P7 use?

It accepts rubber balls, rubber-metal balls, pepper balls, powder balls as well as .50 caliber paintballs.

How does the Quick Cap system work?

The CO2 capsule is only punctured when the user strikes the base of the cap, allowing the system to remain ready for use without active pressure.

What is the effective range of the pistol?

The effective range is approximately 20 meters, with accuracy suitable for close-range use.
