## Quick, precise and secure tool-free assembly.

The **INNOMOUNT Monobloc Picatinny QR Base** is a quick-mount base designed to accommodate Innomount collars of various diameters.
Reliable and precise, it allows for instant installation and removal without tools.

- **Type:** Picatinny one-piece base
- **System:** Quick Release
- **Compatibility:** Innomount collars
- **Fixing:** secure clamping lever
- **Use:** optical mounting

### Quick, tool-free assembly

The **Quick Release** system allows for installation in seconds. Simply press the base against the **Picatinny** rail and lock the lever - simple, effective, without compromising on grip.

### Security and controlled locking

Once closed, the lever cannot open accidentally. A dedicated release button must be pressed to release the mechanism. This system provides added security, especially during travel or while in use.

### Accuracy and repeatability

This one-piece base ensures a reliable return to zero after disassembly/reassembly. This is a crucial feature for demanding users who switch between multiple lenses or configurations.

### Versatility and compatibility

- **Compatibility:** Innomount clamps of various diameters
- **Mount:** Standard Picatinny rail
- **Use:** hunting and sport shooting

- **Installation:** quick and tool-free

**FAQ**

**Is this base compatible with all Picatinny rails?**

Yes, it is designed to fit standard Picatinny rails used on the majority of rifles.

**Does quick disassembly affect the optics adjustment?**

No, this system is designed to offer excellent repeatability and maintain the setting after reassembly.

**Can a scope be mounted directly onto it?**

No, this base is designed to receive compatible Innomount collars, which will then allow the optic to be attached.
