|---|---|---|---|---|
| IM5000-00162 | monobloc / MERKEL KR1 / BASE ONLY | Vente libre | Black | 350.00 € incl. tax |

## Ultra-precise quick assembly for the Merkel Saddle system.

The **INNOMOUNT Base QD Merkel Saddle** is a quick mounting solution designed for rifles equipped with the Merkel Saddle standard.
Robust and precise, it guarantees perfect maintenance of the setting even after disassembly.

- **Type:** QD (Quick Detach) base
- **Compatibility:** Merkel Saddle (4 barrel notches)
- **Material:** 7075-T6 aluminum
- **Fastening:** quick-release clamping levers
- **Tilt:** 0 MOA
- **Profile:** low

### Merkel Saddle compatibility: precision without constraints

Designed for the **Merkel Saddle** four-notch system, this base ensures a stress-free mounting on the barrel. Unlike conventional systems, this preserves the weapon's accuracy over time - a crucial point for discerning hunters.

### High-performance Quick Detach system

The **QD** system allows the optic to be mounted and dismounted in seconds, without tools. In the field, this is a clear advantage: quick optic changes or easy transport, while maintaining a constant zero.

### Stability and resistance to recoil

Made from CNC-machined and hard-anodized **7075-T6** aluminum, this base withstands significant mechanical stress. It maintains its alignment even with powerful calibers-up to .30-06-without loss of accuracy.

### Low and balanced design

Its low profile limits the added height and weight of the weapon. The result: a natural sight picture and excellent handling, particularly appreciated during active hunts or driven hunts.

**Extended compatibility**

- **Weapons:** Merkel B3, B4, K3, K4, K5, KR1
- **Others:** Fabarm Dual AL, Asper / Asper 2
- **Mounting:** Merkel Saddle system
- **Use:** hunting and sport shooting

**FAQ**

**Does the system retain the setting after disassembly?**

Yes, the INNOMOUNT base offers total repeatability, allowing the point of impact to be maintained after reassembly.

**Is this assembly compatible with all Merkel models?**

It is compatible with models using the Merkel Saddle standard with 4 notches. It is important to check this on your firearm.

**Can you easily change your perspective?**

Yes, the Quick Detach system allows you to remove and replace an optic in seconds without tools.
