The **EAW mounting screw set** provides immediate access to the main parts used for mounting, maintaining, or replacing screws on EAW systems. Compact and perfectly organized, this set fits perfectly on a gunsmith's workbench or in the kit of a demanding user.

An assortment designed for EAW builds

The kit contains several specific threads and lengths used on the brand's assemblies. Each compartment is clearly labeled for quick identification of the correct part. In practice, this is exactly the kind of detail you come to appreciate with every job.

Screw references included

The set contains the following items:

- **B066** - M3.5 x 7.8
- **B072** - M4 x 6.0 (Support)
- **B230** - M3.5 x 8.5

- **B231** - M3.5 x 6.3
- **B233** - M4 x 0.5 x 6.0
- **B240** - 6-48 x 3.5
- **B241** - 6-48 x 8.5
- **B243** - 6-48 x 6.5

Clear organization and quick access

The compartmentalized storage system facilitates maintenance operations and reduces selection errors. Furthermore, the immediate visibility of the contents also allows for a quick check of the remaining stock after maintenance.

A practical solution for the workshop

Thanks to its compact size and consistent selection of references, this set meets the needs of both professionals and users wishing to maintain a perfectly maintained assembly over time.

FAQ

What is the purpose of the EAW screw set?

This kit allows you to replace or maintain the screws used on various EAW lens mounts.

Does the kit contain multiple screw sizes?

Yes, the set includes several threads and lengths specific to EAW assemblies, including metric and 6-48 references.

Is this kit suitable for professional use?

Yes, its clear organization and the presence of key references make it a tool perfectly suited to gunsmithing workshops and regular maintenance operations.
