- **Accessories included** : 100 GAMO cardboard targets 14 x 14 cm
- **Ammunition included** : Box of 500 GAMO Match AccuTek 4.5 mm pellets

The Gamo Black 1000 Maxxim Pack was designed for shooters who want a complete set of equipment right from their first session. Thanks to its high-performance rifle, 4x32 scope, precision pellets, and training targets, it offers a particularly comprehensive turnkey solution.

GAMO's signature power and precision

The **Black 1000 Maxxim** features a proven spring-piston mechanism paired with a high-quality rifled barrel. Its velocity of up to 305 m/s in 4.5 mm caliber allows for flat trajectories and excellent

consistency. Its modern ergonomics also contribute to a very comfortable feel during long shooting sessions.

Whisper Maxxim technology: improved shooting comfort

The **Whisper Maxxim** system incorporates sound moderation technology developed by GAMO. This design significantly reduces the noise perceived at the start of the shot while preserving the rifle's performance. It's exactly the kind of detail you quickly appreciate in use.

Adjustable SAT relaxation

The **SAT (Smooth Action Trigger)** improves control of the shot's release thanks to a crisper and more progressive action. In practice, this facilitates shot control and helps improve groupings, especially during precision shooting sessions.

GAMO LC 4x32 WR scope included

Supplied with mounting rings for 11mm rails, the **GAMO LC 4x32 WR** scope offers a wide field of view and an easy-to-use 30/30 reticle. Its 32mm objective lens ensures good brightness, while windage and elevation adjustments allow for precise fine-tuning to suit the shooter's needs.

AccuTek pellets and GAMO targets

GAMO Match AccuTek pellets benefit from an optimized alloy that ensures a better fit with the barrel's rifling. Combined with GAMO 14 x 14 cm cardboard targets, they provide an excellent training ground for developing consistency and tracking progress over time.

FAQ

What does this Gamo Black 1000 Maxxim pack contain?

The pack includes a Gamo Black 1000 Maxxim rifle, a Gamo LC 4x32 WR scope with its mounting rings, a box of 500 AccuTek Match pellets and 100 GAMO cardboard targets.

What are the advantages of Whisper Maxxim technology?

The Whisper Maxxim system helps reduce perceived noise during firing while maintaining the rifle's performance.

Is the toilet seat ready to be installed?

Yes. The scope comes with two 11mm rail compatible rings as well as the necessary mounting and maintenance accessories.

Are AccuTek pellets suitable for precision shooting?

Yes. Their flat head and new alloy promote regular groupings and clean cutting of paper targets, making them particularly suitable for precision shooting.
