- **Barrel** : Metallic
- **Sights** : Adjustable rear sight and fiber optic front sight
- **Safety** : Manual
- **Total length** : 110 cm
- **Optics** : Not included
- **Ammunition** : Diabolo pellets

With its high-visibility camouflage orange finish, the Gamo Shadow HV is sure to turn heads. This air rifle combines a distinctive aesthetic with simple and robust mechanics, making it ideal for shooters looking for a high-performance and easy-to-handle recreational firearm.

An exclusive High Visibility finish

The distinctive feature of this version lies in its synthetic stock adorned with an **HV (High Visibility)** pattern. This bright orange color enhances the equipment's visibility while offering a style distinctly different from traditional finishes.

A simple and effective mechanism

The spring-loaded system combined with the break-barrel allows for quick and independent cocking. No tank, no PCP pump, and no CO? cartridges: simply cock the rifle and you're ready to fire. A solution appreciated for its simplicity and autonomy.

Comfort and precision every day

Fiber optic targets

The adjustable rear sight and fiber optic front sight facilitate rapid target acquisition. It's the kind of detail you quickly notice when alternating shooting distances.

Sturdy synthetic stock

Resistant to shocks and outdoor conditions, the synthetic stock ensures good durability while maintaining a low weight. Overall, the grip remains natural and comfortable.

FAQ

What is the power of the Gamo Shadow HV?

The Gamo Shadow HV develops a power of up to 24 joules depending on the version sold.

What calibers are available?

This rifle is offered in 4.5 mm (.177) and 5.5 mm (.22) calibers.

Does the Gamo Shadow HV come with a scope?

No, this version is equipped with open fiber optic test patterns and does not include optics in its original configuration.

What type of ammunition does this rifle use?

The Shadow HV uses diabolo pellets adapted to the chosen caliber, in 4.5 mm or 5.5 mm.
