Ultra-thin lever mount for Aimpoint Acro with a height of 30.5 mm.

The **USL mount** for **Aimpoint Acro,** part number **T6190-0030,** was designed for demanding users seeking a compact, robust, and perfectly repeatable assembly. Its ultra-slim design eliminates any protruding parts while ensuring reliable locking and consistent zero return after disassembly.

- **Compatibility** : Aimpoint Acro
- **Axle height** : 30.5 mm (1.20")
- **Weight** : 67 g (2.36 oz)
- **Material** : Machined from solid 7075 aluminum
- **Functional parts** : Hardened stainless steel
- **Mounting** : Picatinny rail with adjustable clamp
- **Locking mechanism** : Secure lever with anti-opening system
- **Durability** : 100% shock resistant and repeatable
- **Finish** : Matte black Mil-Spec Type III hard anodizing
- **Design** : No protruding parts for minimal footprint

The USL T6190-0030 mount for Aimpoint Micro sights combines lightness, compact size, and excellent repeatability. Its design is specifically tailored for platforms equipped with a Picatinny rail, requiring quick and secure mounting.

An ultra-compact design

With its exceptionally slim profile, this mount prevents accidental snagging during handling. No components protrude from the main body, a detail quickly noticed during transport or equipment changes.

High-end materials

7075 aircraft grade aluminum

The mount body is machined from a single block of 7075 aluminum to provide an excellent strength-to-weight ratio. This one-piece construction contributes to the overall rigidity while minimizing the weight.

Components made of hardened stainless steel

The most stressed mechanical components are manufactured from treated stainless steel to ensure long-term durability and reliability.

Reliable and repeatable locking

The secure locking lever firmly holds the mount on the Picatinny rail. The adjustable clamping system allows for precise tension adjustment while maintaining excellent repeatability after removal and reinstallation.

Optimized height for Aimpoint Micro

This version offers an axis height of 30.5 mm (1.20"), suitable for configurations requiring a slightly elevated positioning of the sight while maintaining a natural line of sight.

FAQ

Which sights is this mount compatible with?

The T6190-0030 is designed for optics using the Aimpoint Micro footprint.

Is the mount compatible with a Picatinny rail?

Yes, it is designed for installation on a Picatinny rail with an adjustable clamping system.

Does the assembly retain its settings after disassembly?

Its design aims for excellent repeatability in order to find the same positioning after reassembly under normal conditions of use.

What is the finish of the assembly?

The assembly receives a Mil-Spec Type III hard anodizing in matte black, providing high protection against wear and corrosion.
