### Complete PCP kit with digital night vision, pump and goggles included.

The **Gamo Arrow SLT PCP 4.5mm package** includes a lightweight and accurate 19.9 J rifle, a **3-9x40 WR scope**, a **PARD NV007V2 night vision** module, a **PARD IR1 940nm** illuminator, and a **Gamo PCP pump**. This complete setup allows for recreational and precision shooting day and night with immediately operational equipment.

- **Caliber:** 4.5 mm (.177)
- **Energy:** 19.9 joules
- **Function:** Multi-shot PCP air rifle
- **Action:** Straight Pull Bolt
- **Magazine:** 10-round rotary
- **Battery life:** Up to 90 shots per refill
- **Sound moderator:** Whisper Fusion
- **Trigger:** Adjustable two-stroke CAT
- **Rail:** 11 mm integrated
- **Sighting devices:** Yes
- **Scope:** Gamo 3-9x40 WR with Ø26 mm mount
- **Scope magnification:** 3x to 9x
- **Lens:** 40 mm
- **Glasses length:** 31 cm
- **Glasses weight:** 484 g
- **Reticle:** Illuminated Ret. 4

- **PCP pump:** Gamo Flex up to 200 bar with pressure gauge
- **Night vision:** PARD NV007V2 Rear Clip-On
- **Sensor:** CMOS 2560 × 1440
- **Screen:** OLED 1440 × 1080
- **Optical magnification:** 1.4x
- **Digital zoom:** 1.5x to 3.5x
- **IR range:** Up to 350 m
- **Connectivity:** WiFi, HDMI, USB-C
- **Battery:** 18650 rechargeable
- **Recoil resistance:** 6000 J
- **Illuminator supplied:** PARD IR1 940 nm
- **IR settings:** Adjustable beam, 3 power levels
- **Made in Spain**

### **A fully equipped PCP pack**

This **Gamo Arrow SLT kit** includes everything you need to fully enjoy a modern **PCP** air rifle. The high-pressure pump, scope, **digital night vision** module, and infrared illuminator are all pre-assembled to provide a complete solution, ready to use immediately after filling the reservoir.

### **A modern and user-friendly PCP rifle**

The **Gamo Arrow SLT** features a particularly smooth **straight-pull bolt** action. Reloading is quick and easy without breaking the shooting position, a detail that becomes much appreciated during consecutive rounds. Its 10-round rotary magazine, adjustable CAT trigger, and **Whisper Fusion** system offer an excellent balance between comfort, accuracy, and quiet operation.

### **Gamo 3-9x40 WR Scope**

The **3-9x40 WR** variable scope is suitable for both short-range shooting and longer-range precision sessions. Its 40mm objective lens provides good brightness, while its illuminated reticle makes aiming easier in less favorable conditions.

### **PARD NV007V2 Digital Night Vision**

The **PARD NV007V2** instantly transforms daytime binoculars into a true **digital night vision** system. Its clip-on mount, installed behind the optics, allows you to retain existing settings without re-zeroing. Thanks to its high-definition CMOS sensor and OLED screen, the image remains detailed and high-contrast even in very low light.

### **PARD IR1 940 nm Illuminator**

This version comes equipped with the new **PARD IR1 940 nm**. More discreet than an 850 nm illuminator, it significantly reduces the visible light signature while providing powerful infrared illumination that can reach up to 350 meters depending on conditions. Its adjustable beam and three power levels allow for precise adaptation of the lighting to each situation.

### **High-pressure PCP pump included**

The **Gamo Flex PCP pump** allows you to fill the tank up to **200 bar**. Its integrated pressure gauge makes pressure monitoring easy, while its standard DIN fitting ensures excellent compatibility with most common adapters. This setup allows you to fully enjoy the tank's capacity, providing up to approximately 90 shots per fill.

### **Connectivity and recording**

The NV007V2 features **Wi-Fi** connectivity, an **HDMI** output, and a **USB-C** port. Photos and videos can be saved to a Micro SD card and then easily transferred to a smartphone via the PardVision2 app.

### **FAQ**

#### **What exactly does this pack contain?**

The pack includes the Gamo Arrow SLT 4.5 mm 19.9 J PCP rifle, a Gamo 3-9x40 WR scope with its mount, a Gamo Flex PCP pump, a PARD NV007V2 night vision module and a PARD IR1 infrared illuminator in 940 nm version.

**Does the PARD NV007V2 change the scope's adjustment?**

No. Its rear clip-on mount is designed to preserve the daytime bezel setting and installs quickly without re-zeroing.

**Why choose the IR1 illuminator in the 940 nm version?**

The 940 nm version offers a much more discreet infrared emission than the 850 nm version while remaining very effective with the NV007V2 for nighttime observations.
