A compact and robust fixed mount for Picatinny rail.

The **INNOMOUNT FM fixed mount** allows for the installation of a **Picatinny rail** on **Blaser** and **Sauer 505** rifles. Its two-screw torque-controlled system ensures a particularly rigid connection between the rifle and the optic, while its construction from high-strength aluminum and hardened steel guarantees long-lasting reliability. Compatible with upgrades to the **Zero Lock** system.

- **Mounting type:** FM (Fixed Mount)
- **Weapon compatibility:** Blaser and Sauer 505
- **Top interface:** Picatinny rail
- **Construction height:** 12 mm
- **Total length:** 135 mm
- **Weight:** 150 to 180 g depending on the version
- **Fastening:** Two torque-tightening screws
- **Materials:** High-strength aluminum and hardened steel
- **Scalability:** Compatible with Zero Lock upgrades

A permanent fixing for maximum stability

The **INNOMOUNT FM mount** is designed for users seeking a solid and durable connection between their firearm and optic. Its two-screw mounting system, tightened to the recommended torque using a torque wrench, creates a particularly rigid assembly that cannot be disassembled without tools. In use, this design inspires immediate confidence.

A low profile to optimize aiming

With a **build height of only 12 mm** , this mount brings the optics closer to the barrel axis. This configuration promotes a natural shooting position, improves overall balance, and contributes to rapid target acquisition. It's a detail that's quickly noticeable in the field.

Universal Picatinny Rail

The integrated **Picatinny rail** allows for the mounting of a wide range of scopes, thermal optics, red dot sights, and other compatible accessories. Its **135mm** length offers an excellent balance between compactness and freedom in scope ring placement.

Designed for Blaser and Sauer 505 rifles

Specifically developed for **Blaser** and **Sauer 505** platforms, this mount benefits from high-precision machining ensuring a perfect fit. The **high-strength aluminum** body, combined with **hardened steel** components, guarantees excellent resistance to mechanical stress and a long service life.

A scalable solution

If your needs change, this mount can later be fitted with the **Zero Lock** system. This allows you to upgrade your equipment without replacing the entire mount, a significant advantage for demanding users.

FAQ

Is this mount compatible with all Picatinny optics?

Yes. Its standard Picatinny rail allows for the mounting of the vast majority of compatible collars and accessories.

Why use a torque wrench?

Respecting the recommended tightening torque ensures optimal fastening while preserving the mechanical performance of the mount and the weapon.

Can the mount be equipped with the Zero Lock system?

Yes. This version is compatible with an upgrade to the INNOMOUNT Zero Lock system at any time.
