A robust steel base for converting from an 11mm prismatic rail to the Picatinny standard.

The **one-piece Picatinny rail** transforms an **11mm prismatic rail** into a universal **Picatinny** interface. Made of **blued steel** , it guarantees extremely rigid mounting, excellent recoil resistance, and compatibility with a wide range of optics and accessories.

- **Type:** One-piece Picatinny rail
- **Compatibility:** 11 mm prismatic rail
- **Top interface:** Picatinny rail (MIL-STD-1913)
- **Height:** 6.3 mm
- **Total length:** 147.35 mm
- **Weight:** Approximately 135 g
- **Material:** Bronzed steel
- **Mounting:** 5 N00119 clamping elements included

Convert a prismatic rail into a Picatinny rail

This **one-piece Picatinny rail** allows you to equip a weapon with an **11mm prismatic rail** with the **Picatinny** standard. This makes it possible to install a wide variety of scopes, red dot sights, thermal optics, or other compatible accessories without modifying the weapon.

A steel construction for maximum rigidity

Made of **blued steel** , this rail is designed to withstand the stresses generated by the most powerful calibers. Its precision machining guarantees perfectly stable mounting of the scope and minimizes any risk of optics shifting during shooting sessions. In use, this robustness immediately inspires confidence.

The universal Picatinny standard

The **MIL-STD-1913 Picatinny** profile ensures compatibility with the majority of rings, mounts, red dot sights, and accessories available on the market. The continuous rail design offers a wide range of positioning options for optimal eye relief and ergonomics.

A simple and reliable installation

The **five included N00119 fixing elements** ensure even clamping on the 11 mm prismatic rail. With a **height limited to 6.3 mm** , this base maintains a relatively low profile while offering a particularly rigid platform.

A versatile solution

Whether you're looking to upgrade a rifle equipped with an 11mm rail or take advantage of the vast selection of compatible Picatinny accessories, this base offers a durable and versatile solution. It's the kind of equipment you install once... and then forget about because it performs its function so effectively.

FAQ

What is the purpose of a Picatinny rail for an 11mm prismatic rail?

It allows you to convert an 11mm prismatic rail into a Picatinny interface in order to mount optics and accessories compatible with this standard.

Is this rail compatible with all Picatinny mounts?

Yes. Its profile complies with the Picatinny standard, making it compatible with the majority of collars, red dots and accessories designed for this interface.

Why choose a steel rail?

Steel offers excellent resistance to mechanical stress, high rigidity and very good durability, even on weapons generating significant recoil.
