The versatility of Picatinny with direct compatibility of Blaser mounts.

The **Innomount Multirail** for **Blaser Rohling** combines a **MIL-STD-1913 Picatinny** interface with compatibility for **Blaser mounts** . Made of **hardened, bronze-plated steel** , it guarantees maximum rigidity, impeccable lens retention, and exceptional flexibility to adapt to all equipment.

- **Brand:** Innomount
- **Compatibility:** Blaser Rohling
- **Type:** Multirail Picatinny / Blaser
- **Dual interface:** Picatinny MIL-STD-1913 and Blaser mount
- **Material:** Bronze-coated hardened steel
- **Height:** 14.5 mm
- **Total length:** 160.7 mm
- **Weight:** Approximately 135 g
- **Supplied with:** 4 fixing screws N00001

Two mounting systems combined into a single base

The **Innomount Multirail** was designed to offer maximum flexibility. It combines the advantages of the **MIL-STD-1913 Picatinny standard** with the ability to directly use **Blaser mounts** . This allows you to easily adapt your equipment to your needs, without being limited to a single mounting interface.

An ideal solution for upgrading your equipment

Whether you want to mount a scope equipped with Picatinny rings or retain an existing Blaser mount, this rail meets both needs. This versatility is a real advantage for hunters who use multiple optics or want to upgrade their setup without replacing the entire mounting system.

Made from high-strength hardened steel

Machined from **hardened steel** with a bronzed finish, the Multirail offers excellent mechanical strength and remarkable rigidity. The precision-machined cross profiles ensure reliable locking of the assemblies and perfect repeatability after disassembly. This is exactly the kind of detail that inspires confidence in the field.

A stable and accurate platform

With a **height of 14.5 mm** and a length of **160.7 mm** , the rail provides a stable platform for precisely positioning the optics to achieve the desired eye relief. This design helps maintain the optics' alignment, even after repeated adjustments.

Innomount quality at the service of your Blazer

Thanks to its particularly careful machining and robust design, this **Multirail Innomount** is a high-end solution for **Blaser Rohling** users wishing to benefit from maximum compatibility with the main mounting systems on the market.

FAQ

What is an Innomount Multirail?

The Multirail combines a MIL-STD-1913 Picatinny interface with Blaser mounting compatibility, allowing both systems to be used on the same base.

What types of lenses can be mounted?

You can install optics using a Blaser mount or rings compatible with the Picatinny MIL-STD-1913 standard.

Is the screw hardware included?

Yes. The Multirail comes with four N00001 fixing screws for complete installation.
