Complete PCP kit with digital night vision, goggles and high-pressure pump.

The **GAMO Arrow PCP 4.5 mm Pack** includes a **19.9 J PCP air rifle** , a **3-9x40 WR** scope, a **PARD NV007V2 rear clip-on sight** , an **IR1 940 nm illuminator** , and a **GAMO Flex PCP pump** . A complete solution for recreational shooting offering autonomy, accuracy, and low-light observation.

- **Rifle:** GAMO Arrow PCP
- **Caliber:** 4.5 mm (.177)
- **Category:** D
- **Energy:** 19.9 J
- **Speed:** 280 m/s
- **Canon:** 51 cm Whisper Fusion with integrated moderator
- **Total length:** 99.5 cm
- **Weight:** 2765 g
- **Air tank:** 125 cm³
- **Battery life:** Over 90 shots
- **Magazine:** 10-round rotary
- **Trigger:** Adjustable GAMO CAT
- **Rail:** 11 mm prismatic
- **Scope:** GAMO 3-9x40 WR
- **Magnification:** 3 to 9x
- **Lens:** 40 mm
- **Reticle:** 4 luminous
- **Clip-on:** PARD NV007V2

- **Sensor:** CMOS 2560 × 1440
- **Screen:** OLED 1440 × 1080
- **IR range:** Up to 350 m
- **Additional illuminator:** PARD IR1 940 nm
- **Pump:** GAMO Flex PCP up to 200 bar with pressure gauge

A complete PCP kit ready to fire

This **GAMO Arrow PCP kit** includes everything you need to immediately enjoy a pre-charged pneumatic (PCP) air rifle. The rifle comes with a **3-9x40 WR scope** , a **PARD NV007V2 night vision clip-on** , an **IR1 940nm infrared illuminator,** and the **GAMO Flex high-pressure pump** . No additional accessories are required to get started.

A precise and silent PCP rifle

The **GAMO Arrow** delivers **19.9 joules** of energy in **4.5 mm** caliber. Its **125 cm³** magazine allows for over **90 shots** before refilling. The barrel, equipped with the **Whisper Fusion** system, helps reduce noise levels, while the **CAT** trigger improves trigger pull comfort. In use, the overall performance is particularly pleasant and consistent.

A scope suitable for precision shooting

The **GAMO 3-9x40 WR** scope offers variable magnification, making it easy to adapt to different shooting distances. Its **40mm** objective lens provides good brightness, while the illuminated reticle facilitates aiming when conditions become less favorable.

PARD NV007V2 Digital Night Vision

The **PARD NV007V2** instantly transforms daytime binoculars into a **digital night vision** system. Its high-definition CMOS sensor combined with an OLED screen ensures a detailed and high-contrast image. The clip-on rear mount allows you to retain your binocular adjustments while taking advantage of modern features such as Wi-Fi, video recording, and microSD card storage.

Discreet IR1 940 nm illuminator

The **PARD IR1 940 nm** illuminator is the perfect complement to the NV007V2, providing powerful infrared lighting. This wavelength prioritizes discretion while offering a range of up to approximately **350 meters** . The adjustable beam and three power levels allow for precise adaptation of the lighting to the conditions encountered.

PCP Flex pump up to 200 bar

The **GAMO Flex PCP pump** allows you to fill the tank up to **200 bar** . Its integrated pressure gauge makes pressure monitoring easy, while its standard DIN fitting accepts adapters from major brands. A simple and self-contained solution for fully enjoying your air rifle without a scuba tank or compressor.

FAQ

Is the pack ready to use upon receipt?

Yes. The pack includes the PCP rifle, scope, night vision module, infrared illuminator and the PCP pump needed to fill the tank.

Does the PARD clip-on change the scope's adjustment?

No. The NV007V2 is designed to be mounted behind the scope without altering its usual setting when correctly installed.

What is the difference between an 850nm and a 940nm illuminator?

The 940 nm version prioritizes discretion thanks to an infrared emission much less visible than the 850 nm version, while maintaining excellent efficiency with the NV007V2.
