IGT technology and a complete package for accurate, consistent and discreet shooting.

The **GAMO Whisper Maxxim IGT Christmas 2026 Pack** combines a **4.5mm air rifle with a muzzle energy of 19.96 J,** equipped with **IGT** and **Whisper Maxxim** technologies, a **4x32 WR scope** , Pro Magnum Penetration pellets, and targets. This high-performance package offers precision, shooting comfort, and effective noise reduction for recreational shooting sessions.

- **Brand:** GAMO
- **Model:** Whisper Maxxim IGT
- **Pack:** Christmas 2026 Edition
- **Caliber:** 4.5 mm (.177)
- **Power:** 19.96 joules
- **Speed:** 280 m/s
- **Length:** 117 cm
- **Weight:** 2.8 kg
- **Propulsion:** IGT (Insert Gas Technology)
- **Armament:** Tilting cannon
- **Barrel:** Rifled steel with Whisper Maxxim technology
- **Stock:** Ergonomic polymer
- **Rail:** 11 mm aluminum
- **Scope:** GAMO 4x32 WR included
- **Magnification:** 4x
- **Lens:** 32 mm
- **Ammunition supplied:** 250 GAMO Pro Magnum Penetration 4.5 mm pellets
- **Targets:** 100 GAMO cardboard targets, 14 x 14 cm

IGT technology at the service of precision

The heart of this **air rifle** lies in **IGT (Insert Gas Technology)** . The traditional spring is replaced by an inert gas cylinder, providing smoother cocking, reducing vibrations, and ensuring more consistent power shot after shot. At the range or outdoors, this consistency is quickly noticeable in the accuracy of the groups.

Whisper Maxxim: a more discreet shot

The **Whisper Maxxim** system combines a muzzle brake with a sound moderator that wraps around the barrel. This design significantly reduces the perceived noise level while maintaining the rifle's performance. This is a particularly welcome advantage during long recreational shooting sessions.

A power of nearly 20 joules

Developing **19.96 joules** and reaching speeds of up to **280 m/s** , this rifle offers excellent performance in 4.5 mm caliber. Its rifled barrel effectively utilizes diabolo pellets to achieve consistent trajectories and precise impacts on the target.

4x32 WR scope included

The **GAMO 4x32 WR scope** included in the package mounts directly onto the 11mm aluminum rail. Its fixed magnification allows for rapid target acquisition while improving aiming comfort. For both training and advanced practice, it is an excellent complement to open sights.

A complete training-ready pack

The kit also includes a box of **250 Pro Magnum Penetration pellets** , renowned for their excellent penetration and consistent trajectory, as well as **100 GAMO cardboard targets** . Right out of the box, everything is included to fully enjoy the rifle without any additional equipment.

A robust and ergonomic design

Its **ergonomic polymer stock** ensures a comfortable and durable grip. Weighing in at a light 2.8 kg, the Whisper Maxxim IGT remains easy to handle while offering excellent stability during firing. This balance between lightness, robustness, and precision is one of the model's key strengths.

FAQ

What are the advantages of IGT technology?

The IGT system replaces the spring with an inert gas spring. It reduces vibrations, improves power consistency, facilitates cocking, and increases accuracy while limiting mechanical wear.

Is the scope included with the rifle?

Yes. This pack includes a GAMO 4x32 WR scope compatible with the 11mm rail installed on the rifle.

Is the pack ready to use upon receipt?

Yes. It includes the rifle, the scope, a box of 250 Pro Magnum Penetration pellets as well as 100 cardboard targets to start shooting sessions immediately.
