Enhanced stability with a pivoting head for smoother and more precise shooting.

The **Kastelberg heavy bipod** with **swivel head** offers an excellent balance between robustness and mobility. Its **quick Picatinny rail mounting** , **adjustable legs (21-26 cm)** , **5-position** locking system, and **extra-wide feet** ensure optimal stability for precision shooting and long training sessions.

- **Brand:** Kastelberg
- **Type:** Heavy bipod with swivel head
- **Mounting:** Picatinny rail
- **Mounting:** Quick removal
- **Adjustable height:** 21 to 26 cm
- **Weight:** 700 g
- **Leg adjustment:** 5 positions (5 notches)
- **Head:** Swivel with quick adjustment
- **Pads:** Extra-wide, non-slip

A pivoting head to naturally maintain its aiming point

The **pivoting head** provides a real boost in comfort during shooting sessions. It allows you to quickly compensate for slight uneven terrain and makes it easier to keep the reticle on the target without having to constantly move the entire rifle. It's exactly the kind of detail you appreciate after a few rounds of shooting.

Quick mounting on Picatinny rail

Designed for weapons equipped with a **Picatinny rail** , this model features a quick-release system that simplifies mounting and dismounting. Installation is reliable and remains particularly fast, even when multiple configurations are used.

Precise height adjustment

The telescopic legs offer an adjustable height from **21 to 26 cm** . Their **5-notch** locking mechanism ensures precise and repeatable positioning, allowing the bipod to be easily adapted to different shooting positions or uneven surfaces.

A design conceived for stability

Weighing **700g** , this bipod prioritizes rigidity and stability. The **extra-wide feet** improve grip on shooting tables, hard surfaces, or softer terrain, effectively limiting unwanted movement that could affect accuracy.

Robustness for heavy-duty use

The reinforced design immediately inspires confidence. At the range and in the field, the assembly maintains excellent rigidity while remaining easy to handle. It quickly becomes apparent that every component has been designed to offer durable use and consistent weapon support.

FAQ

What is the purpose of the swivel head?

It allows you to compensate for slight slopes in the terrain and to more easily keep the weapon aligned with the target without moving the bipod.

Is this bipod compatible with all Picatinny rails?

Yes. It is designed for 21mm standard Picatinny rails and features a quick mounting system.

Are the feet independently adjustable?

Yes. Each foot is adjustable to five positions to precisely adjust the height and improve stability on uneven terrain.
