A complete 10-shot pack to fully enjoy recreational shooting.

The **Gamo Quiker 10X Christmas 2026 Pack** includes a **4.5 mm air rifle with 19.9 joules of power** , a **Gamo 4x32 WR** scope, 250 Pro Magnum pellets, and 100 targets. Its **10X Quick-Shot GEN1** rotary magazine system allows for up to 10 shots in quick succession without having to handle each pellet individually. A complete and ready-to-use kit for immediate and smoother target shooting sessions.

- **Brand:** Gamo
- **Model:** Quiker 10X
- **Caliber:** 4.5 mm (.177)
- **Energy:** 19.9 joules
- **Capacity:** 10 shots
- **Loading system:** 10X Quick-Shot GEN1 rotary magazine
- **Armament:** tilting cannon
- **Stock:** black synthetic
- **Barrel:** rifled with muzzle brake
- **Length:** approximately 110 cm
- **Weight:** approximately 2.6 kg
- **Optics included:** Gamo 4x32 WR scope
- **Pellets included:** 250 Gamo Pro Magnum pellets, 4.5 mm caliber
- **Targets included:** 100 paper targets
- **Use:** recreational target shooting

10X Quick-Shot: ten pellets ready to keep up the pace

This is probably the detail you'll appreciate most from the very first shots. The **Gamo 10X Quick-Shot GEN1** system uses a rotary magazine with a 10-pellet capacity. Once it's loaded and installed, there's no need to handle a new pellet individually for each shot. You cock the rifle by

breaking the barrel, the mechanism feeds the pellet, and you can refocus on the target. In practice, shooting sessions become smoother without sacrificing the simple operation of a **break-barrel rifle** .

19.9 joules in 4.5 mm caliber

Chambered in **4.5 mm (.177) caliber** , this rifle delivers a stated energy of **19.9 joules** . This configuration is particularly well-suited for recreational target shooting in a safe and appropriate environment. It also maintains a relatively manageable size with a synthetic stock designed to withstand regular use.

A Gamo 4x32 WR scope is already included in the package.

To improve your groupings, the package includes a **Gamo 4x32 WR scope** . Its fixed 4x magnification provides a stable image without the need for magnification adjustments, while its 32mm objective lens offers a classic configuration for recreational shooting. After mounting and adjusting the optics, you have a complete setup to gradually work on shot consistency.

Rifled barrel and muzzle brake

The **rifled barrel** helps stabilize the pellet during its flight. At its muzzle, the muzzle brake also provides a convenient grip when cocking the barrel by breaking it open. This is the kind of detail that might seem subtle on a spec sheet, but becomes more noticeable over time.

250 Pro Magnum pellets to start the sessions

No need to immediately search for consumables: the box contains **250 Gamo Pro Magnum 4.5 mm pellets** . These provide a reserve right out of the box, allowing you to use the 10-shot magazine immediately. As always with an air rifle, the choice of pellet and its consistency can significantly impact the accuracy of your shot patterns.

100 targets to get straight to practice

The pack is completed by **100 paper targets** . The idea is simple: to combine rifle, optics, projectiles, and targets in a single package. For a retailer, this combination also provides an immediately visible offering on the shelf or in an online store, with the main elements needed for **recreational target shooting** .

A complete and coherent seasonal package

This **Christmas 2026** edition focuses less on accumulating accessories and more on a practical set. The 10-shot rifle, scope, pellets, and targets all work together right from the start. In other words, the user can dedicate their first sessions to adjusting the scope, getting a feel for the rifle, and practicing groupings rather than immediately adding to their equipment.

FAQ

How many pellets can the Gamo 10X magazine hold?

The 10X Quick-Shot GEN1 rotary magazine can hold up to 10 4.5 mm caliber pellets. However, the barrel must be tilted between each shot to cock the rifle and complete the feeding cycle.

What does the Gamo Quiker 10X Christmas 2026 Pack contain?

The pack includes a Gamo Quiker 10X rifle of 19.9 joules in 4.5 mm caliber, a Gamo 4x32 WR scope, a box of 250 Gamo Pro Magnum pellets and 100 paper targets.

What are the conditions for purchasing a 19.9 joule rifle?

In France, an air rifle with a muzzle energy of 20 joules or less falls under category D and its purchase is restricted to adults. Current regulations must be followed for its purchase, transport,

and use.
